

Dorna Padron Pepper

Features

Plant

Padrón pepper with medium vigor and high productivity, adapted for both greenhouse and open-field cultivation. Its balanced structure facilitates harvesting and optimizes production.

Fruit

Dorna's fruits have a conical or truncated-conical shape with a characteristic 3-4 lobe finish. Their deep green color at harvest provides an attractive presentation for the market.

Regarding its sensory profile, Dorna stands out for its sweet flavor and firm, pleasant texture, making it ideal for fresh consumption as well as culinary preparation
